

You are invited to the...
2021 Indiana and Illinois Combined Spring Meeting

Who: Anyone who teaches physics or wants to learn more about teaching or learning physics

What: An virtual meeting for sharing all things related to physics teaching

Where: Online!

When: Afternoon/Evening of April 23rd and morning of April 24th, 2021

Why: Reconnect with old colleagues and meet new ones and get encouraged and inspired

How: Registration links are at inaapt.org

Meeting Highlights:

Friday workshop—Mats Selen and Katie Ansell from UIUC will present "Reviving Creativity in Our Introductory Physics labs" in which they describe a system they have developed for introductory physics labs that teaches students how to pose their own questions, design experiments, and communicate their results in a scientific manner.

New teacher network & development—Marianna Ruggerio will present a workshop geared towards pre-service and new teachers to help them build networking skills and encourage participation and publication within AAPT

STEP-UP for women—workshop on strategies high school teachers can use to support, encourage, and inspire female students to major in physics in college

Go to www.inaapt.org to sign up. No registration fee. You may make an optional donation to INAAPT
