

You are invited to the...

2020 IN-AAPT Spring Meeting

Who: Anyone who teaches physics or wants to learn more about teaching or learning physics

What: A one-day gathering for physics related demos, talks, and networking (plus food and fun!)

Where: Avon High School, 7575 East 150 South Avon, IN

When: Evening of April 17th and morning/early afternoon of April 18th

Meeting Highlights:

Friday night—Chris Hill, Tech Ed teacher at Avon, will lead a digital electronics workshop involving the building and testing of a 555 timer circuit, including the effects of capacitance and resistance on sinusoidal waveforms

Saturday morning—Ken Cecire, QuarkNet and Notre Dame, will lead a STEP-UP workshop on strategies high school teachers can use to support, encourage, and inspire female students to major in physics in college

Saturday noon—lunch with keynote speaker Sarah Reynolds from the University of Indianapolis, who will share about the history of physics lab classes, including the challenges past and present of teaching scientific thinking

Go to www.inaapt.org to sign up. Price is reduced from \$30 to \$20 for first-time attendees!

******College students attend free!******
